Defined Terms	Definitions
Rewards	<u>Means any consideration arising from participation in or support for Staking services.</u>
Staking	<u>Means any arrangement, whether performed directly or indirectly through a Staking Service Provider, under which a Client's Virtual Assets are employed pursuant to the rules of a distributed ledger technology network or protocol for the purpose of:</u> <u>(a) the direct or indirect operation of that network or protocol; or</u> <u>(b) facilitating the economic or operational security of that network or protocol, or of another network or protocol that relies on such committed Virtual Assets for its economic or operational security,</u> <u>in exchange for Rewards.</u> <u>"Stake", "Staked" and "Staking Services" shall be construed accordingly.</u> <u>For the purposes of this definition, Staking does not include:</u> <u>(a) the provision of Virtual Assets to liquidity pools, automated market makers, exchanges or market makers;</u> <u>(b) lending, borrowing, margin funding, rehypothecation or similar arrangements;</u> <u>(c) structured, price-linked or volatility-linked products;</u>

	(d) <u>lock-ups of Virtual Assets for allocation, subscription or promotional purposes; or</u> (e) <u>any arrangement where return is earned primarily from liquidity provision, lending, trading activity, price movements or promotional incentives.</u>
<u>Staking Service Provider</u>	<u>Means a participant in a distributed ledger technology network or protocol that has been appointed by an Authorised Person for the purposes of Staking Virtual Assets.</u>
